ABOUT ME

Experienced Full-stack Web Developer specializing in the MERN stack, with professional experience delivering industry-level applications. Skilled in developing scalable, high-quality systems and experienced in building and maintaining production-ready solutions. Committed to staying up-to-date with the latest technologies to drive innovation and deliver efficient solutions.

SKILLS

- **Languages:** JavaScript, TypeScript
- **Front-End:** React.js, Redux, HTML, CSS, Tailwind CSS
- **Back-End:** Node.js, Express.js, Nest.js, REST APIs, OAuth 2.0, JWT, Stripe, Razorpay, OOPS, SOLID Principle, MVC, Repository Architecture
- **Databases:** MongoDB, PostgreSQL, MySQL, Firebase, Redis
- **Cloud & DevOps:** AWS (EC2, S3 Bucket, AWS Lambda), Docker, Nginx, Vercel, Cloudinary, CI/CD Pipelines
- **Messaging & Real-Time:** WebSocket, Zego Cloud
- **Testing, Tools & Quality:** Jest, SonarQube, Git, GitHub, Postman
- **Data Structures & Algorithms:** Linked List, Stack, Queue, Hash Table, Tree, Graph, Trie

EXPERIENCE

Software Engineer

Apr 2025 – Dec 2025

[Mypcot Infotech Pvt Ltd](#)

- Built and maintained full-stack applications using **Node.js**, **React.js**, and advanced **Express.js**, with testing via **Jest** and code quality analysis using **SonarQube**.
- Designed and implemented a **multilingual translation system**, including database schema design and efficient multilingual content management.
- Worked with **MongoDB**, **MySQL**, and **PostgreSQL** for scalable data modeling, query optimization, and performance tuning.
- Developed a real-time chat feature using **Redis adapters**, tested for **10,000 concurrent users**, and implemented a reverse proxy for routing across Dockerized services.

MERN Stack Developer

Jan 2025 – Mar 2025

- Developed a fully functional job portal as a freelance project for a client, collaborating with a team of five developers to deliver a seamless user experience aligned with client requirements.
- Designed interactive user interfaces using **React.js** and **Tailwind CSS**, with **Redux** for efficient state management.
- Built RESTful APIs using **Node.js**, **Express.js**, and **MongoDB**, including database designing, ensuring efficient data flow and management, with **AWS S3** for secure file storage.

PROJECTS

Taqset — Multi-Service Platform

Developed a multi-service platform with Customer, Provider, Bank, Company, and Admin panels for complete workflows.

- Built role-based modules for all the panels and developed scalable **RESTful APIs** using **Node.js** and **Express.js**.
- Used **PostgreSQL** with **Sequelize** for efficient relational data modeling and query optimization.
- Designed schemas for **multilingual data** to support scalable localization.
- Ensured performance optimization, data integrity, and secure API communication.

Elite Care — Doctor Online Consultation Web App

[Live Link](#) — [GitHub](#)

Built an online consultation web app enabling secure video calls, chat, and appointment scheduling.

- Developed Admin, Doctor, and User modules using **Repository Architecture** with **JWT** authentication.
- Integrated **Socket.IO** for real-time chat and notifications, and implemented video calling using **ZegoCloud**, along with **Stripe** for secure payments.
- Built frontend with **React**, **TypeScript**, **Redux** and backend using **Node.js**, **Express.js**, **MongoDB**.
- Deployed on **AWS EC2**, used **AWS S3** for storage and **NGINX** as reverse proxy.

EDUCATION

B. Tech in Mechanical Engineering

2020 - 2023

College of Engineering, Muttathara

CGPA: 8.3/10

Diploma in Mechanical Engineering

2017 - 2020

Central Polytechnic College, TVM

CGPA: 8.03/10
